About

Hi, my name is Jakub. I am 18 years young student who loves working with technology.

I started programming in 2018 when I wanted to learn how to make a custom Discord bot to be cool. This is how I taught my first programming language, JavaScript, which I later switched to TypeScript. I wanted to move forward so I decided to learn Java. Java would become useful in future because I wanted to create custom Minecraft plugins. While creating plugins I learned SQL, Python in school and several other things online. In early 2021 I decided to dump Java and head over to learn Kotlin.

In my free time, I play around in Photoshop or other Adobe software. I also won a design competition back in 2018. My hobbies are programming, of course, dancing and singing in the shower when nobody listens.

Education

2022
2025   **Bc. in Computer Science @ STU FIIT v Bratislave**
Enrolling in September 2022

2018
2022   **Gymnázium Angely Merici**
Focus: Mathematics and IT

Work experience

2021
2022   **Food Service Worker @ KFC**
Preparing & serving foods and beverages.

2018
2021   **Java Plugin Developer @ CraftMania**
Working with Git technology & Github.
Working with ClickUp (collaboration and project management tool).
Working in a team with other developers on several Java projects.
Working solo on several projects in Kotlin.
Working with technologies such as SQL, TypeScript, Redis.

2019
2020   **Summer Camp Computer Technician @ 4CAMPS**
Managing computers used by kids on summer camp.

Honors & Awards

2019   **Bronze Award @ DofE**
The Duke of Edinburgh's International Award

2018   **Design (younger students) @ Junior Internet**
Design competition for aspiring students.

Courses

2021   **Python Weekend @ Kiwi.com**
Interactive seminar from the best developers of Kiwi.com.

Skills

Java Medior	**Photoshop** Experienced	**Redis**
Kotlin Junior	**Figma** Experienced	**Linux**
SQL Junior	**MS Office** Experienced	**OOP**
TypeScript Junior	**React** Junior	**Gradle**
Python Junior	**REST API**	**Maven**
		Spigot API
